Web Page performance

Experience

Web Developer Intern

NextBigBox, JanakPuri, New Delhi

Dec 2024 – May 2025 (6 months)

- Designed and developed responsive landing pages using **HTML**, **CSS**, and **JavaScript**.
- Connected web pages to **MySQL databases** using **PHP** for dynamic content delivery.
- Implemented **front-end styling and formatting improvements** to enhance UI/UX.
- Assisted in maintaining and updating existing web assets and dynamic pages.
- Collaborated with the marketing team to ensure brand consistency across web pages

Projects

Employee Management System

Tools: HTML, CSS, JS, React

- Developed a **responsive web dashboard** featuring separate panels for Admin and Employee roles.
- Integrated **dynamic forms** to capture and manage employee data efficiently.
- Enabled **real-time data updates** to reflect changes instantly across the interface.
- Designed reusable **UI components** using React to ensure consistency and modularity.
- Managed application state effectively with **React hooks** for smooth user interactions.

Online Voting System

Tools: HTML, CSS, JS, PHP, MySQL

- Created a **user-friendly web interface** that allows users to cast their votes easily and securely.
- Connected the frontend to a **MySQL database** to store, manage, and retrieve voting records.
- Developed **backend logic** using PHP to handle vote submissions and maintain data integrity.
- Implemented a **real-time results page** that dynamically displays voting outcomes based on live data.
- Ensured the system was resistant to **duplicate voting** and unauthorized access.
